- Teams race in the age group of the eldest member.
- Individual racers are welcome.
- **U12/U10 competitors** will complete two runs each race day, with their fastest time counting towards the results. The start order for run 1 will be randomly drawn by the computer. For the second run, racers will start in reverse bib order within their age groups, beginning with U10 females, followed by U10 males, then U12 females, and finally U12 males.
- **U14 competitors** will complete two runs each race day, with the combined times determining the prize-giving results. Each run will be seeded as a separate single-run race (see BCR I, Article 608.5). The start order for the first run will follow the standard procedure: the top 15 will be drawn first, followed by registered racers in seed point order, then unranked registered racers, and finally, unregistered racers. The start order for the second run will be a complete reversal of the first run's order.
- **U16 and older competitors will** complete two runs each race day, with the combined times determining both the prize-giving results and seeding. The start order for the first run follows the standard procedure, as outlined for U14s. The start order for the second run will be based on the results (times) from the first run, with the fastest 30 skiers "flipped" for the second run.
- Racers that are disqualified, or did not complete the first run will be allowed to take part in the second run
